"Come Around"

I don't miss the good old days

I've learned a lot since then

I've changed my ways

I'm not bothered by those things that used to get me
down

Only when you come around

But, I don't carry much regret

We all hold something that we'd just as soon forget

And I remember like it was today

The love we found

Every time you come around

Every time you come around

Well, I'm the first to say I should forget you

And I wish I could

But sometimes wishes don't come true

It doesn't seem like much to ask

To live a life that isn't caught up in the past

But there's really no place left on earth

For me right now

I wish you'd come around

I wish you'd come around

Why don't you come around
