### "La"

Sun's coming up in the sky  
Watching the birds passing on by,

Makes me wanna cry  
Makes me wanna cry

La la la la  
La la la laaaa (repeat x 2)

La la la la laaaa (repeat x 2)

I'm lying face upon the ground

Watching the clouds running around

Make me feel so high  
Makes me feel so high

La la la la  
La la la laaaa (repeat x 2)

La la la la laaaa (repeat x 2)

Ladida...

One day this trip will surely end  
And there's no need to start again,

One day this trip will surely end  
And there?s no need to start again,

So leave it all behind  
Leave it all behind (repeat x 11)

(crazy animal noises)
