Deep in the darkest night
Under a midnight blue
Standing alone with the sea and the moon
You said that you'd come back soon
Deep in the darkest night

Deep in a memory
A fugitive on the run
Looking for somewhere to make a bed
Somewhere to lie a restless head
Deep in a memory

Chorus
I'll be your harbour when there's a storm
I'll be your sunshine I'll keep you warm
I'll be your shelter in the rain and snow
Remember wherever you go
Deep in the darkest night

Dans un noir de nuit
Je n'avais rien dit
Souvenir d'un été chaud
Souvenir de soleil et d'eau
Dans un noir de nuit

Deep in your heart you know
You're running against the wind
Taking your loneliness in your case
The same old sadness from place to place
Deep in your heart you know

Chorus

Dans un noir de nuit
Dans un noir de nuit
Deep in the darkest night
