I'm suffering silence i don't make a sound
I'm just not myself when your around
And you just watch me fade away
Another tear falls down

the same old people leave me down
i'm scrambling to leave from this town
you just watch me fade away
another tear falls down

as i turn around a Tear it falls from your eyes
I'm feeling it's your first time of many tonight

what's the difference i've already made up my mind
i'm sorry but your on your own tonight...tonight

Suffer in silence i don't make a sound
I'm just not myself when your around
And you just watch me fade away
Another tear falls down

same old people let me down
i'm scrambling to leave from this town
You just watch me fade away
another tear falls down

as i turn around , a Tear it falls from your eyes
I have a feeling it's your first time of many tonight
what's the difference i've already made up my mind
i'm sorry but your on your own tonight

cause now i'm watching you tonight
You're on your own tonight, tonight
never leave the same

as i turn around a Tear it falls from your eyes
I have a feeling it's your first time of many tonight
what's the difference i've already made up my mind
i'm sorry but your on your own tonight

Another Tear falls down

Another Tear falls down
[down down down]
another tear falls down
another tear falls down

as i turn around a Tear it falls from your eyes
I have a feeling it's your first time of many tonight
what's the difference i've already made up my mind
i'm sorry but your on your own tonight

as i turn around a Tear it falls from your eyes

I have a feeling that your first time of many tonight
what's the difference i've already made up my mind
i'm sorry but your on your own tonight

Watch me Fade

Watch me Fade

Watch me Fade

Watch me Fade

Watch Me Fade

Watch Me Fade

Watch Me Fade

Watch me FAAAAAAAAAAAAAAAAAAAAAAAAAAAAAade
