Inside you and me - was a love that was so free  
I didn't want to ever lose that feelin  
we retreated from the snow - so this flower could grow  
and headed for a place not far from kokomo  
to those tropical nights - you before my eyes  
the moon and the stars - cast their glow upon you  
tropical nights - a lovers paradise  
eager to share all the love that was there in our hearts  
a walk along the sea - the stars in symphony  
we found a cove and then i drove your fears away  
two lovers with a plan - romancin in the sand  
you took my hand and i heard the music play  
tropical nights - dancin in the tide  
the moon and the stars - cast their glow upon you  
tropical nights - a lovers paradise  
eager to share all the love that was there in our hearts  
repeat chorus 1
