You are the girl  
with the smiles of gravity,  
and gravity gets things done.  
You're always up and you're always down,  
but you make it look so fun.

And you want then to see and you want them to know,  
but they never find the real you.  
and you never once complained but now 20 years are  
gone  
and you're ready to explode

I will wait here, darling, to make sure you are okay.  
I will wait here, darling, for you.

I am the one who can solve all your problems  
A savior with only you to save.  
And that's why I'm here, at least I tell myself that  
the motivation becomes so blur.

And you want me to see and you want me to know,  
but I'll never find the real you,  
you're buried just beneath the surface and you're ready to  
explode.

I will wait here, darling, to make sure you are okay.  
I will wait here, darling, for you.

I will wait here, darling, to make sure you are okay.  
I will wait here, darling, for you.

I will wait here, darling, to make sure you are okay.  
I will wait here, darling, for you. For you.

You are the girl with the smiles of gravity  
and gravity gets things done.  
You never once complained but now 20 years have gone  
and you're ready to explode.
