The Pale Pacific-

Lemme tell you how we get this done  
I pass it down cause I love you son  
It's not stealing if you just give me off the top  
and we will move.

With names and numbers you can listen in  
A piece of mail and a phone top thin  
Passwords are indiscriminative  
And now we move

And I am you  
And I am you  
And you are gone

Don't look so worried I wont let you down  
You're so scared about the love within  
You're incapable in confident hands  
and we will move.

Let me tell you how we get this done  
I pass it down because I love you son  
It's not stealing if you just give me off the top  
And now let's move

And I am you  
And I am you-

They won't even notice  
What they don't even know what they have  
And I ?for sunked it in they deserve theft?  
Play the part, Play the part

Better than the original

Run swiftly my dear son  
Run, run swiftly my dear son

THat Im feelling way to young  
To know what Im really getting into

To begin a life of crime to live on the path  
Even with you, even with you

They won't even notice  
What they don't even know what they have  
And I ?for sunked it in they deserve theft?  
Play the part, Play the part

Better than the orginial

And I am you, And I am you  
And I am you.  
And I am you, And I am you  
And you are gone
