And even if I never see you again
In my life
I'll always have you with me
You will always be my wife
There will never be another like you again
In my time
And I was such a fool to stand and watch you walk away
from me

I'll never love another girl
I just want you back in my world
Even when I'm with somebody else
If you want you can have me for yourself now

I'll never love another girl
I just want you back in my world
Even when I'm with somebody else
You no I love you

Two years now
It's bin so long
Since we started
But I no that I can light the fire we started
Is it to late for forgiveness for the wrongs that I did you
Take me back girl if you want to cheat on me I forgive
you.

And even if I never see you agen
In my life
I'll always have you with me
You will always be my wife
There will never be another like you again
In my time
An I was such a fool to stand an watch you walk away
from me

I'll never love another girl
I just want you back in my world
Even when I'm with somebody else
If you want you can have me for yourself now

I'll never love another girl(never will)

I just want you back in my world(timeless)
Even when I'm with somebody else
You know I love you girl

Baby
Caw me have ah hope and dreams
Mi try till me weak
