This is my party, nobody gets out alive.  
There's poison in the keg, i hope you brought your own.  
DD, there's no need, you're leaving in a casket.  
I hope you enjoy your last breathes, you're not getting  
out alive.  
This is our moment.  
You're not going home tonight.  
This is your last monent.  
Nobody's getting out alive.  
One and two and and one and two and.  
You came to party, but you're not going home tonight.  
You came to party, but you won't make it through the  
night.  
This is my party, nobody gets out alive.  
You won't make it home tonight.
