If I could take over  
The world we're in  
I wanna reach out to every  
human being  
I'd take all the sorrows from  
every goodbye  
I'd shed all the tears, so no one  
ever need t cry  
But.

CHORUS:  
Nobody cares for me  
Nobody here needs me  
A love to share but nobody  
dares  
Nobody cares for me

I'll summon the oceans  
To down every pain  
I wanna be shelter to the  
countless in shame  
Erase every conflict from every divide

I wanna give every bit of me  
until I die

(REPEAT CHORUS)
