Love, love is a danger of my life  
How many tears you'd make me cry  
If I could give you my heart tonight.  
Oh-o-o-o, love

Another day is over.  
I'm in the silence of my room  
This love is just a problem  
And I don't need a girl like you  
You wanna be my lover  
But I could see you like a friend  
Don't try to tell me other.  
For me it's just the end

And now your time is over  
Don't try to change my point of view  
I'll never be your lover.  
You wanna break my heart in two  
My heart is like a fire  
And I don't want to die for you  
You show me your desire.  
My soul is not for you
