Wake up you've got a big day  
Today you'll put a friend into the grave  
Ain't nothing you can do or say to make this change  
So get up you've got a big day  
By the grace of God when an angel comes your way

The heart goes on and on and on and on  
Even after you've been gone  
And it goes on and on and on and on  
Even when no blood's running through your veins  
The heart goes on

Remember New Year's Eve at the Dresden place?  
Shots rolled off when you spawned your love that day  
We wanted to sing  
So I'm getting up for the big day  
The grace of God's gonna lay you down today
