Visit "[Cunt Killer](#)" on MotoLyrics.com

One by one dismembered
addicted cunt killer
imprison me
but you can't take away my memories of the screams
and the pleas of the innocent
confessing to homicide I'm a murdering mother fucker
killer rapist severe schizophrenic
guiltless
empty
fulfilling every sick dream
normal madman helter skelter manson
am I a fucking murderer
fuck yeah
feeding every fantasy it's too easy
unholy creation of mass murder
systematically depopulating
feeling inebriated after killing you
domination manipulating every victim into submission
total control of your fucking soul
I decide how you will fucking die
I suffocate you
slit your throat
a bullet in the head
a blunt object
