They're only good for sexual fulfilment
All I need is their genitalia
Bitches cunts whores and sluts
Subjected to ungodly beatings
I'm aroused
Assaulting women
Mass pussy obliteration
Sucking and fucking is all that they're good for
Without a vagina they're totally useless
Her breasts pushed together and then fucked violently
Fingering her cunt severed hands caress my swollen
penis climaxing I cum
All over her body gutted and bloody I keep
Fucking until my penis begins bleeding power
Absolute control over them
Taking what I want they won't give it up
They are put on this earth for us
For our own enjoyment to rape kill and torture
They are fucking whores
I keep killing them off and raping the dead
Every woman is fucking useless
Except for their cunt asshole and mouth
Everything else can be discarded
Mass pussy obliteration
Total fucking disintegration
Intense and intoxicating
Mass pussy obliteration
