Voices tell me to kill them a complete fucking failure of
the human race I don't give a fuck
about the human race you cunt motherfuckers want to
come my way I'll send your fucking
asses to an early grave I am driven by fucking I
remember every one every fucking minute
the look on their face when I stuck it in them when they
fucking died I didn't give a fuck,
they crossed the fucking line they fucking bit the dust
why can't you fucking realize that I
won't go out alive the shit went down they fucking lost I
look them out I fucked them up
before you take me out I am fucking up as many of you
as I can before you take me out
I am taking out as many of these fuckers as I can they
never had a fucking chance I didn't
have a fucking choice voices tell me to kill you a
complete fucking failure of the human
race I don't give a fuck about the human race you cunt
motherfuckers want to come my
way I'll send your fucking asses to an early grave I
don't give a shit I don't give a fuck you
cross the fucking line you I'll fucking bite the dust Fuck'
em your cunt is assaulted your ass
is assaulted Your face is assaulted, every thing is
violated....
