Must be nice just to take your heart and run
When loves no fun and just say you're through
You don't think twice when it's over and done
You never need anyone like I need you
Just how does it feel to say goodbye
And not look back with a tear in your eye

CHORUS

I wouldn't know
I wake up every morning with an empty feeling deep
down in my soul
I still think of you and lose control
Letting go must be nice
But I wouldn't know
Lucky you, you've got a heart that heals fast
You forget the past before it's gone
You're on the move starting over again
No matter who's been right or wrong
Well I've been hearing there's somebody else
I bet it's great to be so sure of yourself

CHORUS

I wouldn't know
I wake up every morning with an empty feeling deep
down in my soul
I still think of you and lose control
Letting go must be nice
But I wouldn't know
Now you act like I'm just someone you knew
How does it feel to be that sure we're through

CHORUS

I wouldn't know
I wake up every morning with an empty feeling deep
down in my soul
I still think of you and lose control
Letting go must be nice
But I wouldn't know
