We were half a mile high  
On the Ferris Wheel  
In our own county fair  
I didn't even know we had trouble  
Until she told me way up there  
That's when my life sartert standin round  
And my world came crashin to the ground

Chorus:

The day she left Tulsa.....  
In a chevy in a hurry in the pourinn down rain  
Where the caution lights flashin in the passin lane  
On the bridge I watched our dreams go down the drain.  
In a chevy in a hurry in the pourin down rain

And no she wasn't showin yet  
But she'd be by Christmas time  
But up there like a fool  
I took for granted it was mine  
She never came out and told me I was wrong  
But all of a sudden the light came on

Chorus

I guess she thought the truth would  
End up driving me away  
But she was wrong  
But I never had the chance to say  
The day she left Tulsa.....  
In a chevy in a hurry in the pourin down rain (2x)  
Chorus  
In a chevy in a hurry in the pourin down rain (2x)
