My baby get it on, get it in, get it out
Tell me what it's all about

My baby get it on, get it in, get it out
Tell me what it's all about

My baby get it on, get it in, get it out
Tell me what it's all about

My baby get it on, get it in, get it out
Tell me what it's all about
C'mon and make me happy

My baby get it on, get it in, get it out
Tell me what it's all about

My baby get it on, get it in, get it out
Tell me what it's all about
C'mon and make me happy

My baby get it on
Get it on
Come on and make me happy
Baby get it on

Boy, all I Know
You won't see me at all
When I walk out that door
All by myself, on the floor
For my life I want more

Hey, all I know
Black or white it's the same
When they play with your game

My baby get it on, get it in, get it out
Tell me what it's all about

My baby get it on, get it in, get it out
Tell me what it's all about

My baby get it on
My baby get it in
My baby get it out

My baby get it on
My baby get it in
My baby get it out
come on and make me happy
Get it on

Hey, all I Know
Black or white it's the same
When they play with your game
How'd ya feel, is it real
pardon me, make it real

My baby get it on, get it in, get it out
Tell me what it's all about

My baby get it on, get it in, get it out
Tell me what it's all about

My baby get it on
My baby get it in
My baby get it out

My baby get it on
My baby get it in
My baby get it out

My baby get it on, get it in, get it out
C'mon and make me happy
C'mon and make me happy

My baby get it on, get it in, get it out
Tell me what it's all about

My baby get it on, get it in, get it out
Tell me what it's all about
C'mon and make me happy
