Hear a message on my radio, I get home, I got  
nowhere to go  
Think about ya day and night, I'll be waiting, so when it  
feels right  
Anytime you want at all, anytime, anytime you want,  
just call  
Heart beats faster, lose control, a burnin' fever gets  
you alone  
I need your love, you're the only one  
The night is passin', I could soon be gone  
So anytime you want at all, anytime  
Anytime you want, just call, anytime you wanna rock 'n  
roll  
(Solo)  
Anytime  
Telephone, telegram, come on over, make me feel like  
a man  
A crack of thunder over my home town, I read the  
future, it has to go down  
So anytime you want at all, anytime  
Anytime you want, just call, anytime you wanna rock 'n  
roll  
Anytime you need my love, anytime, anytime you want,  
just call, ooh yeah  
Anytime you want my love, anytime you're on your own  
(Anytime, anytime) Anytime you want my love (anytime,  
anytime)...
