She's got a certain style in everything she does
She's someone to know, just because, yeah, just
because, yeah
Ooh, yeah yeah yeah, come on, be my little baby
tonight
She's seen everywhere, looking like Venus too
Emotional suicide, she couldn't give a damn, no, guess
she shows
Ooh, yeah yeah yeah, come on, be my little baby
tonight
She's got a heart of gold, and nerves of steel
Feels like broken glass, she's so unreal
(Solo)
She's got a velvet touch, igniting a frozen heart
She's indispensable, she'll tear your soul apart, yeah,
yeah
Ooh, yeah yeah yeah, come on, be my little baby
tonight
Yeah, come on, come on, come on, come on and be my
little baby tonight
