Heard that she's back in town, heard she's been seen
around
I hear she gets what she wants every time
I know what she puts you through, I know what you'd
like to do
'Cos I lost my heart to her some time ago
So come on, wipe your tears away, it's all that you can
do
A broken heart never mends, cry your tears till the very
end
At home on the boulevard, cheap whisky and tyro cars,
man, she's outrageous
She wants the best in life, sugar daddies with ageing
wives
She is expensive in the things she does
So come on, wipe your tears away, it's all that you can
do
A broken heart never mends, cry your tears till the very
end
She knows what it must be like, livin' in paradise
If you ain't got money, she don't wanna know
I know what she puts you through, I know what you'd
like to do
I lost my heart to her some time ago
So come on, wipe your tears away, it's all that you can
do
When you've got a broken heart
Come on, wipe your tears away, it's all that you can do -
oh yeah
