I've never met someone
Quite like you
Sorry for what I've done
And put you through
We were together that night
When it all went wrong
Heaven's coming

She moves over and slides
Her hand in mine
The wheels slip and we cross
The double lines
We were together that night
When it all went wrong
Heaven's coming

Chorus:
Don't cry tonight
I know that it will be alright
Don't cry tonight
You're still with me

We finally came to a stop
On the other side
You were still in the car
So where was I?
Somebody wake me up
I swear I must be dreaming
This can't be happening
I feel her screaming
In the end

Chorus:
Don't cry tonight
And I know that it will be alright
Don't cry tonight
You're still with me
You're still with me

I can't breathe
I still feel your arms
Around me

If I dream
You're still with me...

Now, I'm older, still lonely
But you're by my side
I can't help but get choked up,
Break down, and cry
I held your last breath in my hand
But I let it go
God, forgive me!

Chorus:
Don't cry tonight
I know that it will be alright
Don't cry tonight
You're still with me

Don't cry tonight
I know that it will be alright
Don't cry tonight
You're still with me
You're still with me....
