(Dance Buildup)

In your eyes I see your broken soul  
And there's nowhere for my spirit to go  
See the light that burns inside of you  
And I know that I'll be close to you

Into the darkness we can fly  
Upon the wings of your desire  
I see the light

We're floating on a cloud of love  
With you I just can't get enough  
I see the light

Into the darkness we can fly (Into the darkness)  
Upon the wings of your desire  
I see the light

We're floating on a cloud of love  
With you I just can't get enough  
I see the light

I see the light (x3)
