Laguardia made you late and I got tired of waiting  
Cause this does not feel like a holiday  
Even with the fresh bread baking downstairs  
I hope you get home soon  
Cause we said love was just like youth  
That it was time worth wasting  
We said young love felt like a holiday  
It felt like fresh bread baking downstairs  
I hope you get home soon  
It's enough if you're saying that it's love  
I'm gonna wait, gonna wait  
Gonna make it home...  
Laguardia made you late...
