I hold my heart like newborn children  
feast upon their first gaze at life  
I twist it deep into spoiled fruit  
and squeeze out all the seeds onto the dirt  
Just to make me hurt  
hurt just a little worse

Well I am said more than I really am  
the universe, but nothing at once  
I have a plan  
to take back what I had

Lacerate  
everything will seep through  
I can't take any of this anymore  
I cut along the life-flow street harder and harder

'Cause I lacerate the vein  
to take away the pain  
I concentrate the hate  
that you burrow in me

I gave her all that I could give  
and not enough, as I expected  
I bleed alone all by myself  
what was once is cast aside.

The gift I had, I have wasted  
a stupid parlor trick  
baby I love the way you breathe  
baby I'll take your breath away

Lacerate  
everything will seep through  
I can't take any of this anymore  
I cut along the life-flow street harder and harder again

'Cause I lacerate the vein  
to take away the pain  
I concentrate the hate  
that you burrow in me

I just want to be free  
I just needed understanding  
why does everyone deserve love but me?  
Yell at me again and  
I'll run as red as demons flesh  
suicide is evil, yes  
but fuck, you were the cause

'Cause I lacerate the vein  
to take away the pain  
I concentrate the hate  
that you burrow in me

I only wanted something you were equipped to give  
I see nothing now in your nothing face  
I see a flag evil in its place

Well my own flesh sings like locust when you're around  
no, you won't touch me  
no, never again

Lacerate  
everything is seeping through  
I can't take any of this, not a bit of it  
I cut along, but I'm interrupted again and again  
and again cause it hurts

'Cause I'll lacerate the hate  
blood cleanses the palettes taste  
concentrate, now cons-in-fucking-trate

Lacerate  
everything will seep through  
I can't take any of this anymore  
I cut along the life-flow street harder and harder

'Cause I lacerate the vein  
to take away the pain  
I concentrate the hate  
that you burrow in me
