Forced deep into the separated cranium of a crusty
used up slut;
My gigantic rod. swollen member penetrating her now
empty eye sockets.
And all other holes are to be filled. Crushing and
fucking pulverized brain tissue with still moist tounge
caressing my sack.
That bitch never saw that one comin.
She tried to scream, she tried to fight.
But I plugged that throat.
With my ten inch pipe.
She choked and gagged and punched for mercy.
But this whore should of known better.
I busted out my trusty blade
And removed he skull from her twitching body.
Now there's silence and the bitch is dead.
Finally I can fuck some face in peace and quiet.
