"Gangster Of Love"

Visit "[Gangster Of Love](#)" on MotoLyrics.com

I go wild when I party, I go for total confusion
wanna hit the sky just like a butterfly
dancing with hot shot girl, she drives me crazy cut like
a knives

suck my k i s s killing your sweet blood
use black cadillac, driving down the highway
turn the radio, hear the fucking DJ's say,
living in the motel room, live like crazy king

one more night one more rides and one more drinks

rest with me I am a gangster of love
rest with me you will never going die
rest with me you will be still alive

wild heart need more party, to scream the loudest i can
take more angel dust and that is what I like
people running like hell, fire come from my shotgun
hit the old gas station, fire everywhere
