There's gonna be a change of season

Indian Summer look around

And it's gone

Why you wanna save the best for last

We grow up so slowly

And grow old so fast

We don't talk about forever

We just catch it while we can

And if I grab on

To the moment

Don't let it slip away

Out of my hand

What about now

What about now

Forget about tomorrow

It's too far away

What about now

What about now

Close your eyes

Don't talk of yesterday

It's too far away

Too far away

It's too far away

What about now

I'm coming out of the shadows

I'm getting of of this one way street

Blue memories

They just gather dust

Leave them in the rain

They turn into rust

Did you see the march to freedom

Did you ever see Savannah moon

In the middle of the night

All the other people

Walking in a line

Said to the man

Is it my time

What about now

What about now

Forget about tomorrow

It's too far away

What about now

What about now

Just close your eyes

Don't talk of yesterday

It's too far away

Too far away

It's too far away

What about now

In the walk of a lifetime

When you know it's the right time

Bring it to me darlin'

I can't wait

I can't wait

Until the ship comes in

I can't wait

I can't wait

Starting up all over again

The errors of a wise man

Make the rules for a fool

What about now

Forget about tomorrow

It's too far away

It's too far away

What about now

Don't talk of yesterday

It's too far away

It's too far away

What about now

What about now

Forget about tomorrow

It's too far

It's too far away
It's too far away
What about now
Close your eyes
Don't talk of yesterday
It's too far away
Too far away
It's too far away
Too far away
It's too far
What about now
It's all about now right now
Don't break the spell
Don't break the spell
Don't break the spell
Don't break the spell
It's all about now right now
Now right now
Here right now
It's all about now
All over by tomorrow
Don't break the spell
