Forced deep into the separated cranium of a crusty  
used up slut;  
My gigantic rod. swollen member penetrating her now  
empty eye sockets.  
And all other holes are to be filled. Crushing and  
fucking pulverized brain tissue with still moist tongue  
caressing my sack.  
That bitch never saw that one comin.  
She tried to scream, she tried to fight.  
But I plugged that throat.  
With my ten inch pipe.  
She choked and gagged and punched for mercy.  
But this whore should of known better.  
I busted out my trusty blade  
And removed the skull from her twitching body.  
Now there's silence and the bitch is dead.  
Finally I can fuck some face in peace and quiet.
