Walked all day till my feet were tired  
I was low, I just couldn't get hired  
So I sat in a grocery store  
"Help is light & I need some more"

(I got a job)  
Sha na na na, sha na na na na  
(repeat above 2 lines 3 times)  
Well, I fin'lly fin'lly fin'lly fin'lly fin'lly (got a job)  
Sha na na na, sha na na na na

You've been houndin' me to get a job  
Well I finally did & my boss is a slob  
He's on my back really all day long  
It seems like everything I do is wrong  
Well, I fin'lly fin'lly fin'lly fin'lly fin'lly (got a job)  
Sha na na na, sha na na na na

(He says to me)  
"Get the boxes, take 'em to the basement  
Do the job right or I'll get a replacement  
Get the mop & clean the dirty floors  
& when you're finished wipe the windows & the doors"  
I fin'lly fin'lly fin'lly fin'lly fin'lly (got a job)  
Sha na na na, sha na na na na

Well, this man's about to drive me stone insane  
One of these days I'm gonna have a fit  
& though the boss keeps a-runnin' through my brain  
I'll never (never) (never) (never) (never never quit my  
brand new job)  
Workin' all day & workin' all night & workin' all day

(repeat previous 2 verses)

(repeat "Workin' all day & workin all night" & fade)
