Every now and then
Somebody comes into my life
Oh, and for a little while
It seems they're the answer to my dreams
To my prayer

As sudden as they come
They start to fade
Like floating smoke rings
Oh, how can they stay with me when
They're only penciled in
You're always there

So all my love
If you can find it in your heart
To do just one thing for me
Come back (Come back), come back (Come back)
Come back (Come back), come back

I don't wanna look
When I know where
Just what I need is
Oh, honey, you've got it with you
So what else can I do
But come to you, my love and say

Take me in your arms
Hold me close
I need to feel you

Oh, to me there's nothin' like your touch
It's what I need so much
Oh, yes, I do, my love

So if you feel the need
To ever be with me again
Don't let another moment pass
Come back (Come back), come back (Come back)
Come back (Come back), come back

(I can't find) My way to a very special somewhere

(I cant find) Myself cause without you, Im just out there
(I cant find) That person I wanna put that much in
(I cant find) Anybody like you who makes touchin more
than touchin

Ive been lookin
Theres just nobody around, ooh
No sense lookin
For who can never be found

Mmm...

So if you feel the need
To ever be with me again
Do it, do it, do it, do it, do it
Come back (Come back), come back (Come back)
Come back (Come back), come back

(I cant find) Sleep at night, Im either watchin TV or
walkin
(I cant find) Any conversation that means more to me
than talkin
(I cant find) Satisfaction even when I do surrender
(I cant find) Anybody like you who makes tender more
than tender

Ive been lookin
Theres just nobody around, oh
No sense lookin
For who can never be found, oh, oh...

(I cant find) Anybody like you who gets my full attention
(I cant find) Anybody who means enough for me to
mention (I cant find) That person
