Baby-baby-baby, baby-baby
Baby-baby-baby, baby-baby
Well, now baby take me back
Hey baby, take me back

I know I done you wrong, but I belong with you
When you needed me most, I turned my back on you
Please don't leave me baby, whatever you do
Well, baby take me back
Hey baby, take me back

Well-well, baby take me back
Hey baby, take me back
I know I hurt you bad and made you sad and blue
Yes, I cheated and I lied, I brought you misery
But now I see the only one I fooled is me
Well, baby take me back
Hey baby, take me back

Well-well, baby take me back
Hey baby, take me back
Well, this pain in my heart is more than I can bear
Let me kiss those lips, honey lips, once more
Won't you hold me, hug me, squeeze me like you did
before
Well, baby take me back
Hey baby, take me back
(Rock now)

Well, let me kiss those lips, honey lips, once more
Won't you hold me, hug me, squeeze me like you did
before
Well, baby take me back
Hey baby, take me back
Hey baby, take me back
Baby-baby, take me back
