Listen - Passion

Da na si da nah ah si da ounya maen a si

Mama you shoulda seen me today
Conversations with our hands
And smiles on our faces

Silly pictures
Kodak moments what I needed the most

'Cause once I fly away, I know my heart will stay right
here and I hope it never fades away

The sound of silence

The smile of a blind girl when she touches my hair as
she realizes that I had tears of joy rolling down my face
All I can say is

Lalalala la lalala la lalalalala

No better way to say it then

Lalalala la lalala la lalalalala

Papa, see this is more than words can say
But you woulda been so proud
18 is just a number 'cause I became a man today
I realize that
We're not alone in this circumstance no

See love is the answer and through this will God be
glorified
Be glorified

The sound of silence

And a picture of David in my pocket
Made it easier to understand
You've held then in your hands all this time

all I can say is
Lalalala la lalala la lalalalala

no better way to say this
lalala la lalala lalalalala

Da na si da nah ah si da ounya maen a si
Da na si da nah ah si da ounya maen a si

All I can say is
Da na si da nah ah si da ounya maen a si

Sing it
Da na si da nah ah si da ounya maen a si

No better way to say it than
Da na si da nah ah si da ounya maen a si

Lalalala la lalala la lalalalala/Da na si da nah ah si da
ounya maen a si
