There she goes again, leaving me confused
On the table with cold coffee in one hand
Told me she talked to me about this some other time
But that statement has been floating over and over in
my mind

Picked all the petals off the flowers
Prayed to God for a final answer
Wished on every shooting star I saw flying in the sky
When will I ever know

Oh, Mrs Intuition
She loves me one time
She loves me no time
She loves me sometimes
Why do you have to be so indecisive?
& Keep me waiting
Cuz maybe one day when you'll need me
I'll be gone, yes I'll be gone

There she goes again, leaving me confuzzled
With my heart held in one hand
So easy for her to tell me I'll talk ya later baby
She's speaking a language that I don't understand

Picked all the petals off the flowers
Prayed to God for a final answer
Wished on every shooting star I saw flying in the sky
When will I ever know

Oh, Mrs Intuition
She loves me one time
She loves me no time
She loves me sometimes
Why do you have to be so indecisive?
& Keep me waiting
Cuz maybe one day when you'll need me
Oh I'll be --

Mrs Intuition
She loves me one time

She loves me no time
She loves me sometimes
Why do you have to be so indecisive?
& Keep me waiting
Cuz maybe one day when you'll need me
Oh I'll be

Sometimes I feel like I'm your rebound
At times I feel like I'm your man
Sooner or later I'll need an answer
I can't take this anticipation
No more (x4)
Yea (x10)

Mrs Intuition baby
She loves me one time
She loves me no time
She loves me sometimes
Why do you have to be so indecisive?
& Keep me waiting
Cuz maybe one day when you'll need me
Oh I'll be

Oh, Mrs Intuition baby
She loves me one time
She loves me no time
She loves me sometimes
Why do you have to be so indecisive?
& Keep me waiting
Cuz maybe one day when you'll need me
I'll be gone ..
