The beat is getting stronger  
I can't take it any longer  
Everytime I go to sleep I wake up to  
this beat inside of me  
You can't ignore this beat  
You have to get up on your dancing feet  
You will have no time to eat  
The beat is so much stronger than me,  
oh, yes it is  
I observe and I learn  
Today I have been reversed  
And it seems to me now like I'm the  
centre of the universe  
People ask me if I am going insane  
But I say it's just this missile in my vain  
It comes on hard, there's no stop no start  
And it kicks so strong, the kick goes on  
Over and over 'til you can't belong,  
it's an endless song  
One, two, three, it goes on  
Ooo Mental Beat

Ooo Mental Beat

Your hero is a zero

And you're just another weirdo

It comes on like a bomber, a long distance drummer

If you can't hear the beat you must be deaf

Hanoi Roxx has got the beat

Boy, they never seem to sleep!

And teh only explanation is that

there is no protection

Against the Mental Beat

So let's go
