I'm that thorne in your side
I'll be there til you bleed
and you'll bleed until you die
But I'm that spark in your rage
you now you can rely on me
to turn the page
I'm that spark

I'm that flaw in your hope
you can beg all you want
but you will never cope
But I'm that shield
when you fail
to protect you from suffering, from pain
I'm the shield

I have made you who you are
and I have helped you reach this far
I am nothing, I am it all
without me you will fall

I'm that plague in your brain
that takes away the sun
and brings out the rain
But I'm your god when you pray
to help you remember
the good things in your day
I'm your god

I have made you who you are
and I have helped you reach this far
I am nothing, I am it all
without me you will fall

I'm your god
