Do you know who you wanna be or who you really are  
You seem to be confused so don't you go to far  
Your thoughts is breaking you but do you want to fight  
them back  
This is no fairytale this is a fucking trap

Do you wanna stay where you are  
To drive your million dollar car  
Or just live your life while you can  
I feel sorry for, you aint got the plan

Your honor is stopping you from leaving what you got  
Other people is telling you that they wanna be like you  
What's most important for you, honor or your life  
Think about it man, I'm giving you an advice

Do you wanna stay where you are  
To drive your million dollar car  
Or just live your life while you can  
I feel sorry for, you aint got the plan

Do you wanna stay where you are  
To drive your million dollar car  
Or just live your life while you can  
I feel sorry for, you aint got the plan
