Long hair, short hair, light hair, dark hair
Long hair, short hair, light hair, dark hair

Well, I was walkin' down the street in force nine gale
My hair was blowin' out like a horse's tail
I went to the barber's and he gave me a jar
He said: "Better use this or you won't get far"

[Chorus]

Just a little dab'll do ya (rub it in, rub it in)
Just a little dab'll do ya (rub it in, rub it in)
Just a little dab'll do ya to last the whole day long

Told my friend about it and he gave me a smile
Asked if he could use it for a little while
Well, it ain't the kinda thing a guy can easily loan
Okay guy, I'll get a jar of me own

Well, you put a little blob on the palm of your hand
Put your hands on your head, then you rub 'em around

Well, I was naggin' with my baby in the back of the car
She said: "Your hair's in a mess, aren't you going too far?"

Well, I told her not to worry 'cause I really cared
I bought a spare jar, I was well prepared

Well, you put a little blob on the palm of your hand
Put your hands on your head, then you rub 'em around

Just a little dab'll do ya
Just a little dab'll do ya
Just a little dab'll do ya
Just a little dab'll do ya
Just a little dab'll do ya to last the whole day long

Shoot out and buy yourself a jar today
