We need a better idea, here quick  
Before the sun's beatin' down on our necks  
We need a better idea  
Watch us speed, to the end of the world  
Promise all, that we've already heard  
And still we're nowhere  
I don't care to know all the details  
How you left him to shout down the stairs  
I don't care to know  
Slow Red Dawn is gonna come  
Slow Red Dawn is comin' on  
Slow Red Dawn  
Do you see that thin strip of light there?  
On the skyline, it seems unaware  
That we haven't slept yet  
But as long as we still laugh for keeps  
And you swear you were dyin' to leave  
There's no reason to sleep  
Slow Red Dawn is gonna come  
Slow Red Dawn is comin' on  
Slow Red Dawn  
Slow Red Dawn is gonna come  
Slow Red Dawn is comin' on  
Slow Red Dawn  
Do ya see that light there?  
On the skyline unaware  
Do ya see that light there?  
Comin' on  
Are we gonna let it flag?  
I think we got it in the bag  
Do ya see the light there?  
Comin' on
