This ain't the time to be reasonable  
Can't put much stock in that now  
The storm front it hangs, a silence gone strange  
Can't put much stock in that now  
Storm gone crazy  
Storm gone night  
This is the time to follow me blind  
Or follow me over the side

Call me storm crazy  
Or your lover  
You laugh as I grab for the flame  
Lightning explodes at the top of the trees  
You laugh as I grab for the flame

Fences are down, an open corral  
Watertower stands on its head  
Keepin' us warm, electrical storm  
You follow wherever you lead

Storm gone crazy  
Storm gone night  
This is the time to follow me blind  
Or follow me over the side

Call me storm crazy  
Or your lover  
You laugh as I grab for the flame  
Lightning explodes at the top of the trees  
You laugh as I grab for the flame
