Love her  
and tell her each day  
that girl needs to know  
tell her so, tell her everything I couldn't say  
Like she's warm, and she's sweet and shes's fine, Oh  
love her like I should have done.

And hold her, and show her you care. When her world  
is blue see her through any time that she needs you be  
there, by her side, be the guy that I couldn't be and  
love her, love her for me.  
Please love her, love her for me.  
Hold her, and show her you care, when her world is  
blue see her through any time that she needs you be  
there, by her side, be the guy that I couldn't be and  
love her love her for me.

Yeah, c'mon love her, love her for me.
