After what happened
You made my heart twist and bend
But know just do this one thing for me
Just Please please recognize me recognize me

It's kinda funny how you liked me 1st
Tables are turning, now my heats about to bust
This is all my doing, I just pushed you aside
Even now I just sit here and cry
Now you're with my old best friend
we were suppost to be tight til the end
well that's all over now and my only dream
So please please recognize me

I feel like this only happens to me
now all I do is think about what it used to be
I should have stepped up and not allow you to do this
that one simple little kiss
is killing me inside
its like my soul has just died
I wish you could see
that I want you to recognize me

so I hope your happy
even though I feel crappy
so just live your life
without me in it
without you my life is pushed to a strife
I bet to you I'm like that piece that just wont fit
I know you don't feel the same way about me
I'll have to find someone else to recognize me
