Ponies and flowers and all things pretty!!

Pretty things everywhere

No hate, no despair

The big, bright, burnin' sun, under it: No bombs, No
guns

Love, peace or bloodstains this small world, so much
pain

Pretty things

Pretty things

Pretty things

Are all around me

Ugly things

Ugly things

Ugly things

They're what surround me x2

Dissatisfied with the state of the Earth

Every city bombin'

What's it all worth?

War, death, pain and violence

Too many people holdin' they're silence

Chorus X4
