Binge with alcohol
Purge with water flow
No one needs their wants
It's what I need to know

To force your way is the only way
Nothing here for sale, it's all been sent to hell

End becoming frayed
Solution is the blade
Come take what you need
With crumbs I'll have my feed

To force your way is the only way
Nothing for me to tell, it's all been sent to hell

Waste away my name
Make it all the same
Waiting to be lured
For me there is no cure.

Leave your wants alone
How can you be shown
No one needs their needs
It's what I need to know

To force your way is the only way
Nothing her for sale it's all been sent to hell
