"Let It Go"

Walls fallin' to my fate, fallin' to my hate, fallin' to my
state of mind.

War corrupts in myself, created my own hell

I've already fell to something I can't find,

Memories covered in blood, child's eyes starting to
flood

And then I realise I have to leave it all behind.

CHORUS

Let it Go,

All in time,

Let it Go,

See without eyes,

Let it go,

Read the signs,

Can't let it go, can't forget the cries.

V 2

Rush of blood to my head, Just might as well be dead,

The fire burning red

Eyes blinded by the sun can't turn around to run,

It's like stabbing with a knife that's blunt,

Slowly turning blind, your life begins to unwind,

But it's time, time to leave that all behind

CHORUS x2

Repeat V1
