"Silent Soul"

I've often wondered what you hold inside
Beyond the flesh beyond your pride
Behind this stands a broken man
God was the one who dealt this hand
Inside the man is a gaping hole
But something's missing he has no soul.

CHORUS

Look inside yourself there's nothing there
He says we don't understand & that we don't care
Underneath the nothing, beyond the hole
Is where he hides his silent soul

Hey, Hey, Hey , Hey

V2

It's not his fault it's not the life he chose
It's like a plant that just won't grow
All this time & he'd never reveal
He felt the pain that we couldn't feel
Behind the man still a gaping hole
But beyond the nothing there is a soul
He saw the things none of us could see
There is no cut but the soul still bleeds.

CHORUS

Bass Solo

V3

Behind this man, behind his skin
Behind the blood there is nothing
He could not see He could not feel
There was no pain there is no real
