

Walls of Jericho "Night of a Thousand Torches"

Visit "[Night of a Thousand Torches](#)" on MotoLyrics.com

i need to feel alive tonight
sing your heart out
we're not damned in this
take back the night
i will defy you
take back what's mine
i will defy you
what we defy now
will shape our lives forever
with liberty we strengthen
our own destiny
we must take back the night
let's make this legendary
we must take back our lives
lets live it in all its glory
loyal to our insight
we refuse to let this die
Allegiance is our victor
dedicated to the fight
with virtue we do what's right
This is our declaration
Desperate for a life
I can believe in
we're not damned in this life
take back the night
I will defy you
take back what's mine
we must take back the night
we must make this legendary
we must take back our lives
lets live it in all its glory
