Take that my heart you break that  
When you shake that, earthquake that  
Like an arrow through the heart  
Thought we'd never part  
While you're blowing Kiss Darts  
Me toppin' charts you breakin' hearts  
Shoulda known and listened to the fellas  
Thought those cats were just jealous  
I was just a thing to you, just a fling to you  
At nights I used to sing to you  
And my heart I bring to you  
You a queen me a king to you  
You left me on the throne alone  
A king without his queen at home  
Feel the sting the busy bee has flown  
True colors shown  
Not seeing red, feeling blue  
Yellow for the sun shining through the clouds  
With these Reason sounds, tourin' towns  
Soak this mic until it drowns  
Groovin on, movin' on  
Provin others wrong through this song

(Chorus)

Girl  
Tell me your name  
And give me your number  
What  
A beautiful name  
He's Wally Boy Wonder  
True  
You light up my flame  
Rain brings the thunder  
Love  
Will never be the same  
At the end of the summer

Now here we go again  
Summer love again  
Can we hang again  
Do this thang again  
I kind of moved on from last year

This past year  
You broke my heart remember?  
Beginning of September?  
Had a lot to think about  
Wrote it out, spelled it out  
Yelled it out, into the Shure  
It's my only cure  
Along with writin' scripts  
But God I love those lips  
Those hips enough to sink ships  
Drown for the summer wear the crown  
Let's play around lay around  
But know where each other stands  
No plans, no demands  
No heartbreak, no heartache  
Go our separate ways  
Memories of each other stays  
Your lovely ways amaze  
Our way fades into fall days  
Through the winter let's text some  
End of summer I'll see you on the next one

(Chorus)

Sun shining above  
You're the one that I love  
Can't always get what you want
