These are no cities  
These are no concrete spikes  
Which wait  
Only to impale or imprison  
These are only villages  
Pleasant country villages  
Scattered over  
The whole face the world  
People now support themselves alone  
Making just the things they need  
The sceners is pure  
As it once could be  
We have turned back time  
And everyone is happy  
We have turned back time

And everyone is happy  
We have turned back time  
And everyone is happy now  
These are no cities  
These are no concrete spikes  
Which wait only  
To impale or imprison  
You.You.You.You.You.  
A spike  
Is a resort  
For homeless people
