So are you ready to follow me here further down the
road
Where there's no light in sight, just blind man painting
this grey zone?
Touch my deepest part inside and feel the cold wind
blow
I cannot see around, just glassy eyes look where to go
Close your eyes (I'll give you everything you need)
For thousand years (sail with your sweetness to the
stream)
Is it so?
My manic incognito drives you mad when I'm not here
Are you feeling lonely, don'tcha know why I'm not near?
Your desolation mind keeps telling where about to start
Just sacrifice your teenage will for those who want your
part
Close your eyes (I'll give you everything you need)
For thousand years (sail with your sweetness to the
stream)
Close your eyes (Stuck with these rhymes that you've
been told)
...and you're old!
Hey man, where are you going, are you leaving this
space behind?
With a speed of light I'll take the next round - which is
mine
Close your eyes (I'll give you everything you need)
For thousand years (Bring us somewhere where we'll
be free)
Wish me well (I think I'm dead when you have come)
For thousand years (soon they will saturate your soul)
...and then you're old!
